Four Days Management Development Programme on
"FINANCE FOR DECISION MAKING"

Dates: October 17-20, 2016 at Chennai

Introduction

This programme is specially designed to provide inputs in the area of accounting, costing and financial management coupled with the underlying concepts and methodology ensuring a reasonable understanding of the crucial parameters in the financial and investment decision making process. These inputs will provide a basis for the working executives to channelize their thinking in appropriate directions, besides, enhancing knowledge. The skills so acquired may be effectively utilized in their day to day work and thereby promoting the quality of business decisions.

Objectives of the Programme

- To enable the participants to understand the finance domain of management.
- To facilitate the participants in grasping the finance jargons and understand the meaning and relevance and its application in their day to day working.
- To inspire the participants to imbibe a thorough understanding of how their decisions impact the top and bottom line of their organization and thereby their departments.
- To enable the participants to have a thorough understanding and analysis of the important financial statements of a company such as profit and loss account, balance sheet and cash flow analysis.
- To help participants in identifying value implications of decision alternatives and help them in making decisions

Pedagogy of the Programme

The participants will learn the basic concepts and implications of finance through class room lectures, interactive discussions and case studies. Both conceptual and practical sides will be stressed.
