IIM Ranchi has achieved a major milestone in its global expansion strategy with the prestigious accreditation from the Association of MBAs (AMBA), placing the institution among the top two percent of business schools worldwide. The accreditation marks the institute's first major step toward achieving the globally acclaimed "Triple Crown" status in management education. AMBA accreditation is among the world's most selective benchmarks and is awarded only after a rigorous evaluation of academic excellence, innovation, student experience, and career impact. With this achievement, IIM Ranchi joins the growing group of top Indian management institutes that have met the highest international standards of postgraduate business education.

The institute's leadership attributes this milestone to its foundational values of humility, honesty, and hard work, which continue to guide its mission of producing globally relevant leaders. The accreditation also opens doors for students to access AMBA's exclusive global network of over 60,000 members across more than 75 countries, providing international exposure, enhanced pro-

fessional mobility, and significant career opportunities.

This success follows another recent recognition— IIM Ranchi was awarded the "4 Palmes of Excellence" in the Eduniversal Best Business Schools Ranking 2025.
