PINAKI MAJUMDAR

Jamshedpur, August 11: The Indian Institute of Management Ranchi has welcomed the sixth batch of its five-year Integrated Programme in Management (IPM), with 62 young management aspirants beginning their academic journey for the 2026–31 session.

The new cohort has a notable gender profile, with women accounting for 71 per cent of the batch.

Induction blends academics with experiential learning

The week-long induction programme combined academic orientation with a range of experiential and team-based activities designed to help students develop collaboration, communication and leadership skills.

Students participated in case competitions, presentations, Business Feud, Marketing Roulette, jamming sessions, Human Library, Human Connect, sports events, a service kiosk, treasure hunt and a dance competition.

The activities gave the new entrants an opportunity to interact beyond the classroom, work in teams, identify their individual strengths and gain an early understanding of the collaborative environment at IIM Ranchi.
