We are eight years young and a proud member of strong IIM family established by the Ministry of Human Resource Development, Government of India. At IIM Ranchi, we believe that excellence is not a destination, but a journey on which we are making impressive strides. We are happy to announce that we have crossed the mark of one thousand distinguished alumni contributing to the nation building while working in government, international agencies, private and public sector and as entrepreneurs. Our faculty members are luminaries from industry and academia. The time-tested case-based pedagogy and academic curriculum followed at IIM Ranchi are incessantly modified to enhance the knowledge and lateral thinking capabilities of the students while keeping abreast of the current industry standards and requirements. Our students have made their presence felt in various avenues, be it academics, sports, placements or extracurricular activities. We have been rapidly gaining ground by proactively evolving with the changing business ecosystems around us. The students are educated not just to be industry-ready managers and future leaders, but also nurtured to be humble citizens and symbols of hope in the society.

Let us embark upon a journey of mutual growth, a journey that further invigorates our long-term associations, where our students get the opportunity to exhibit their skills and expertise, thereby adding value to the organization and society through this synergetic partnership.

I hereby extend a hearty welcome to all the potential recruiters to find their budding leaders in our students.

With Best Wishes

Prof. Shailendra Singh
Director, IIM Ranchi
The dynamic and competitive nature of our global ecosystem requires more than just business leaders. We, at IIM Ranchi, believe in creating responsible and empathetic citizens. In the past 7 years, 850+ talented, enthusiastic and successful managers have graduated from the hallowed corridors of IIM Ranchi. The diverse background of the current batch very well complements the holistic training imparted to them.

While students with prior work-experience reinforce a deeper understanding of the business world, fresh graduates bring the much-needed new perspectives and innovations to business ideas. Our pedagogy focuses on the perfect amalgam of the wisdom of the East and the technologies of the West to develop the finest minds of the country. We strongly emphasize on the 3 H’s – Humility, Honesty and Hard work which form the essence of IIM Ranchi. We give paramount importance in instilling business etiquettes and decision-making skills that give us an edge in the corporate world.

I welcome you to IIM Ranchi to find the best fit for your organization, from the talent pool of brilliant minds and hope that the search for the best managerial talent happily ends here. I pray that the symbiotic relationship between your organization and IIM Ranchi keeps strengthening with every passing year.

With Best Wishes

Vision
To be among the top 10 B-schools in the Asian region by 2020

Mission
- To attain thought leadership through Erudite Fusion of Eastern Wisdom with the Western processes for Knowledge Creation
- To strive for holistic development of the individual, institution and the society at large
- To strive for harmonious co-existence with the society and the environment

Core Values
Humility, Honesty and Hard work for individual and corporate success

The bird in the logo is a crow. We did not choose an eagle that is arrogant, a peacock that is proud or a seagull that is foreign to us. We chose the crow because it has several positive traits that the institute stands for. Crows, in many cultures, are the keepers of knowledge as nothing escapes their keen eyesight. The bird has been created in a manner that it looks like a forward arrow (The three green strokes symbolize the community), taking everybody along, together for the flight. The Sanskrit verse symbolizes the institute’s vision as working to bring a change towards success, not only for one’s self but also for the community.
IIM Ranchi, ninth member of the elite fleet of IIMs, was established in Ranchi in 2010 under the tutelage of IIM Calcutta.

In light of the aggressively competitive and dynamic world we live in today, IIM Ranchi understands the need of imparting right values to the young minds. Along with an education that befits this progressive age, IIM Ranchi inculcates the priority of collaboration over competition. The graduates of IIM Ranchi aspire to aid the progress of all stakeholders - individual, organization and the community. Same is justly reflected in the institute’s motto, “बहुमुखविकासोगन्तव्यः (Bahumukhvikaso Gantavya)”, which translates to “Working to bring change towards success, not only for one’s self but also for the community”

Also offered is FPM, a fellowship programme funded by the government, and PGEXP, an 18-month part-time Diploma in Management for working executives. For business organizations, IIM Ranchi offers short term Management Development Programs on topics like ‘CSR’, ‘Use of Business Analytics and Business Intelligence (EPBABI)’ among others. Apart from these, ‘In Company Programs (ICPs)’ on Creativity, Problem Solving, Social Media Marketing Management and more are also conducted by the institute.

IIM Ranchi firmly believes that field experience and a sound knowledge of business functionalities is a must to become competent industry professionals. Both the flagship programmes are, thus, carried out in a world-class fashion with students being exposed to case-studies, live projects and relevant industry seminars apart from text-book pedagogy.

The institute, in completing 7 successful years, has churned over 850 highly accomplished management graduates. IIM Ranchi has come a long way in terms of the student diversity. Beginning in 2010 with a single female student, current gender ratio stands at 36:64, which is one of the highest among B-Schools across the country. The batch comprises of students from diversified educational and professional backgrounds like engineering, arts, commerce and business management along with a healthy mix of fresh graduates and experienced candidates.
